*Be strong and
courageous.....for the
Lord your God is with you*

16th March 2026

Dear Parents and Carers,

As part of our **Courageous Advocacy afternoons**, Year 2 have been learning about the importance of bees and other pollinators. During these sessions, the children have been carrying out **FIT (Flower-Insect Timed) checks around the school grounds** to observe and record the number of insects visiting flowers.

The children noticed that **very few bees were visiting our school**, which led to discussions about how we could help. After researching solutions, they discovered **“Bee Bus Stops.”** These are bus shelters with **roofs planted with wildflowers**, creating small habitats that provide food for bees and other pollinators in towns and cities.

The class felt strongly that this would be a great way to support bees locally, so they have decided to take action by **writing to Buckinghamshire Council and creating a petition asking for Bee Bus Stops to be introduced in High Wycombe.**

We would really appreciate your support by **signing and sharing the children’s petition:**

<https://buckinghamshire.moderngov.co.uk/mgEPetitionDisplay.aspx?id=154>

The petition runs from **16 March 2026 to 13 April 2026.**

If possible, please also **share the link with friends and family** to help spread the word. The children are very excited to see if their idea can make a real difference.

Thank you for your support.

Yours sincerely

Mr S Biddle
Year 2 Class Teacher
