

*Be strong and
courageous.....for
the Lord your God is
with you*

20th May 2026

Dear Parent/Carer,

As part of our butterfly learning, Year 5 planted strawberry plants to attract our class butterflies (the Grizzled Skipper and Speckled Wood). To protect our plants from being eaten by birds, we are going to make some simple bird feeders.

We will be using pine cones or cardboard rolls, bird seed and sunflower seed butter to create feeders that can hung around our school grounds. Products used will be nut free,

If your child has any allergies or sensitivities that may be affected by handling these materials, please let me know as soon as possible so that I can make appropriate arrangements. It would also be really helpful if the children could gather any pine cones or cardboard kitchen rolls and bring them in for Monday 29th June.

Thank you for your support.

Yours sincerely,

Angela Margerison

Mrs A. Margerison
Assistant Headteacher, Year 5.
