Lord your God is with you*

5th February 2025

Dear Parent/Carer,

DT salad making
Monday 10th February

As you are aware from my previous letter, Year 2 are exploring healthy foods and have designed salads which they will be making in the afternoon of Monday 10th February. The children used the results of their taste test to create salads that contain a variety of colours, textures and flavours.

I will be providing the following vegetables for the children to use to make their salads:

- Cucumber
- Iceberg lettuce
- Cherry tomatoes
- Carrots
- Radishes
- Red pepper
- Sweetcorn
- Celery

Container

I would be most grateful if you would send in a **named container** for your child to put their salad in to take home. A takeaway-sized container will be plenty.

Additional ingredients

Some children have chosen to include fruits or vegetables that are not in the list of provided ingredients above. If this is the case for your child, I will send home a separate slip of paper with them that details the additional ingredients they have opted to use. Please send these ingredients in to school in your child's named container. We can store ingredients in the fridge if needed.

Please note that these additional ingredients are optional and their absence will not affect the outcome of the lesson.

Yours sincerely

Miss T. Carøe
Year 2 Class Teacher
