

# Spring into a new book or dig into a new genre

from Mrs Margerison

## **The Street Beneath My Feet – Charlotte Guillain**

This double-sided foldout book takes you on a fascinating journey deep underground. One side of the foldout shows the ground beneath the city, whilst the reverse side shows the ground beneath the countryside. The underground scenes include tunnels and pipes, creatures' burrows, layers of rock and the planet's molten core, and run seamlessly into the next. Mixing urban and rural settings, covering subjects such as geology, archaeology and natural history, 'The Street Beneath My Feet' offers children the opportunity to explore their world through a detailed learning experience.

## **Mathilda – Roald Dahl**

Matilda is the world's most famous bookworm, no thanks to her ghastly parents. Her father thinks she's a little scab. Her mother spends all afternoon playing bingo.

And her headmistress, Miss Trunchbull? She's the worst of all. She's a big bully, who thinks all her pupils are rotten and locks them in the dreaded Chokey.

Despite these beastly grownups trying to push her down, Matilda is an extraordinary girl with a magical mind. And she's had enough. So all the terrible adults had better watch out, because she's going to teach them a lesson they'll never forget!

## **The 130-Storey Treehouse - Andy Griffiths and Terry Denton**

This is our Treehouse, come on up! We've added 13 new levels to our Treehouse (it used to be 117 storeys, but it keeps

on growing!) including a soap bubble blaster, a GRABINATOR a time-wasting level, a toilet paper factory (because you can never have too much toilet paper) and an extra-terrestrial observation centre

...

## **Children's Encyclopedia – Christopher Lloyd**

This beautifully illustrated, 416-page compendium of knowledge is a must-have

addition to every family bookshelf and library collection!

With more than 100 expert consultants from around the world, and over 1000 images, including specially commissioned illustrations and stunning photography.
