Dear Parent/Carer

RE: RAAC

You may be aware from media coverage that the government has asked some schools to close or partially close due to the presence of reinforced autoclaved aerated concrete (RAAC) in their school buildings. We understand that this is an unsettling news story and that it may naturally have led you to wonder about the safety of our school building.

Our school building does not contain RAAC and is fully safe to open.

We have previously inspected our school for RAAC and found none present, these checks were in addition to our regular and continuing maintenance, inspection and repair program.

I hope that this provides reassurance, if you have any questions, please do not hesitate to contact me via the school office.

Yours sincerely,

Celine Hawkins
Headteacher
